

### G1-M1-Lesson 38

Find and solve the addition problems that are doubles and 5-groups.

Make subtraction flashcards for the related subtraction facts. (Remember, doubles will only make 1 related subtraction fact instead of 2 related facts.)

Make a number bond card, and use your cards to play Memory.

5 + 0	5 + 1	5 + 2	5 + 3	5 + 4	5 + 5
6 + 0	6 + 1	6 + 2	6 + 3	6 + 4	
7 + 0	7 + 1	7 + 2	7 + 3		
8 + 0	8 + 1	8 + 2			
9 + 0	9 + 1				
10 + 0					

5 and 5 = 10 is a double fact and uses a 5-group. Both addends are 5.

5 + 4 uses a 5-group since 5 is one of the addends. I'll make the subtraction flashcards 9 - 5 = 4 and 9 - 4 = 5. This row has more facts that use a 5-group.

$5 + 4 = 9$

$9 - 4 = 5$

5 and 4 are the parts that make 9.

$9 - 5 = 4$
