

GK-M4-Lesson 21

There were 4 oranges. Robin ate 1. Cross out the orange she ate. How many oranges were left? Fill in the boxes.

I cross out 1. Then, I count how many are left: 1, 2, 3. So, 4 take away 1 is 3.

4 take away 1 is

$$4 - 1 =$$

3

3

I can read the number sentence: 4 minus 1 equals 3. "Minus" is how you say "take away" in math.
