

GK-M4-Lesson 32

Anya has 9 stuffed cats. Some are gray, and the rest are white. Show two different ways Anya’s cats could look. Fill in the number sentences to match.

I colored this one the 5-group way.

I colored this one a different way.

$$9 = 5 + 4$$

$$9 = 6 + 3$$

9 is the same as 5 and 4. It is also the same as 6 and 3. There is more than one way to break apart 9.
