

GK-M5-Lesson 15

Count the Say Ten way. Write the missing numbers.

	60	<u>6</u> tens
	70	7 tens
	80	<u>8</u> tens
	70	<u>7</u> tens
	60	6 tens

I can count by tens and the Say Ten way! I count the ten-frames first. There are 6 ten-frames, so that is 6 tens. 6 tens is the same as 60.
