

## GK-M5-Lesson 2

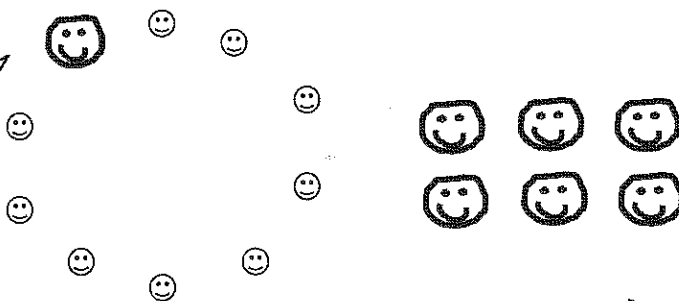

Draw more to show the number.

10 ones and 3 ones

It's easy to see 10 dots right here. They are in 5-groups! So I just draw 3 more.

10 ones and 6 ones

There are 9 happy faces already. So I draw 1 more to make 10.

I draw 6 more off to the side. That makes it easy to see the 10 ones and the 6 ones.
