GK-M5-Lesson 21

Complete the number bond and number sentence. Draw the cubes of the missing part.

```
      ┌──────┐
      │  12  │
      └──────┘
       ╱      ╲
  ┌──────┐  ┌──────┐
  │  2   │  │  10  │
  └──────┘  └──────┘
```
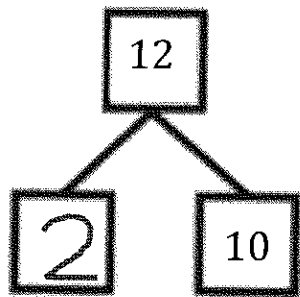

$$12 = \underline{\quad 2 \quad} + 10$$
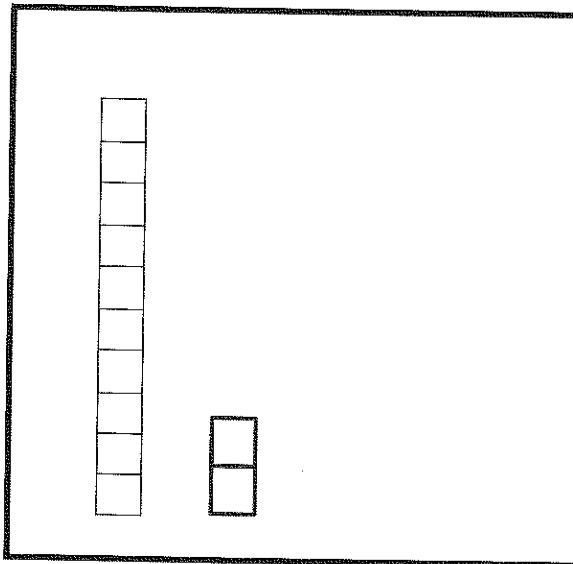

Hiding inside of 12 are 10 ones and 2 ones. I write a 2 to finish the number bond and the number sentence. There are 10 cubes already there, so I draw 2 more cubes to make ten 2, or 12 cubes.

Lesson 21:   Represent teen number decompositions as 10 ones and some ones, and find a hidden part
