

## GK-M5-Lesson 23

Bob bought 5 strawberry doughnuts and 10 chocolate doughnuts. Draw and show all of Bob's doughnuts.

Write an addition sentence to match your drawing.

$$\underline{5} + \underline{10} = \underline{15}$$

It's easy to see the doughnuts in two parts: strawberry and chocolate! 5 and 10 is the same as ten 5. That's 15.

I am great at making addition sentences! Let me tell you how my addition sentence matches my picture. The number 5 tells about the strawberry doughnuts. The number 10 tells about the chocolate. The number 15 tells how many doughnuts in all.
