

G1-M4-Lesson 1

1. Circle groups of 10. Write the number to show the total amount of objects.

a.

There are 34 peanuts.

b.

There are 23 carrots.

I circle groups of ten. I count the tens first and then the ones. 2 tens 3 ones is 23.

2. Make a number bond to show tens and ones. Circle tens to help. Write the number to show the total amount of objects.

a.

b.

I think 10, 20, and 8 is 28.

When I count with ten-sticks, it's much quicker to count. 10, 20, 30, 31, 32, 33, ..., 39.
