

G1-M4-Lesson 23

1. Fill in the blanks, and match the pairs that show the same amount.

I can match these pictures because they both show 32. 3 tens 2 ones is equal to 2 tens 12 ones. If I bundle 10 ones in the picture on the right, it would have 3 tens 2 ones.

3 tens 2 ones

2 tens 12 ones

2. Match the place value charts that show the same amount.

The place value chart shows how many tens and ones. It's okay to have more than 9 in the ones. 2 tens 15 ones is 35.

tens	ones
3	5

tens	ones
3	7

tens	ones
0	37

tens	ones
2	15

3 tens 7 ones is the same as 37 ones. I can unbundle the 3 tens, which makes 30 ones. I add the 7 ones, and now I have 37 ones.

3. Emi says 29 is the same as 1 ten 19 ones, and Ben says 29 is the same as 2 tens 19 ones. Draw quick tens to show if Emi or Ben is correct.

One straight line is a quick ten. I draw 1 quick ten and 19 ones for Emi's drawing. I draw 2 quick tens and 19 ones for Ben's drawing.

Emi is correct because 1 ten 19 ones is the same as 29. Ben is not correct because 2 tens 19 ones is the same as 39, which is not 29.
