

G1-M4-Lesson 4

1. Fill in the number bond, or write the tens and ones. Complete the addition sentences.

5

}

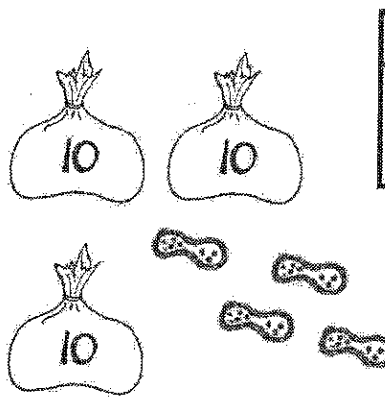

20

}

25

$5 + 20 = \underline{25}$

20 more than 5 is 25.

tens	ones
3	4

$\underline{30} + \underline{4} = \underline{34}$

I can make a number bond that shows the tens and ones. I can break apart 25 into 20 and 5.

3 tens 4 ones is the same as the number 34. 3 is the digit in the tens place, and 4 is the digit in the ones place.
