

# G1-M6-Lesson 21

1. Use the word bank to label the coins.

pennies      dimes

pennies

I am learning the names and values of coins!

2. Write the value of each coin.

The value of 1 penny is 1 cent.

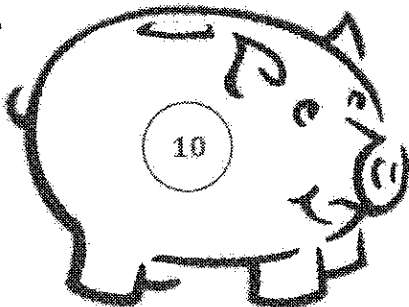

3. Your papa said he will give you 1 dime or 1 penny. Which would you take, and why?

I would take 1 dime because it is worth 10 cents. A penny is only worth 1 cent.

I would take the dime because it is more money!

4. Kira has 10 cents in her piggy bank. Which coin or coins could be in her bank? Draw to show two different sets of coins that could be in Kira's piggy bank.

A dime is worth 10 cents. Maybe she has 1 dime.

A nickel is worth 5 cents. She might have 2 nickels.
