

## G1-M2-Lesson 1

Read the math story. Make a simple math drawing with labels. Circle 10 and solve.

Maddy goes to the pond and catches 8 bugs, 3 frogs, and 2 tadpoles.  
How many animals did she catch altogether?

I have 10 and 3 more.  
That makes 13  
animals!

$$\begin{aligned} 8 + 3 + 2 &= 13 \\ 8 + 2 &= 10 \\ 10 + 3 &= 13 \end{aligned}$$

I can make ten by adding 8  
and 2. I can make one group  
with 8 and 2, just like we put  
a string around them in  
class!

Maddy caught 13 animals.
