

G1-M2-Lesson 28

1. Solve the problems. Write your answers to show how many tens and ones.

$9 + 6 =$

$$\begin{array}{r} 9 + 1 = 10 \\ 10 + 5 = 15 \end{array}$$

9 needs 1 more to make a ten. Then I need to add 5 more.
 $10 + 5 = 15$. That's 1 ten and 5 ones.

2. Solve. Write the two number sentences for each step to show how you make a ten.

Ani had 9 flowers. She picks 5 new flowers. How many flowers does Ani have?

$$\begin{array}{r} 9 + 5 = 14 \end{array}$$

$$\begin{array}{r} 9 + 1 = 10 \\ 10 + 4 = 14 \end{array}$$

9 needs 1 more to make 10.

$$9 + 1 = 10$$

Since I took the 1 from 5, I
 have to add 4 more.

$$10 + 4 = 14$$
