

G2-M3-Lesson 21

1. Find the pattern. Fill in the blanks.

a. 497, 498, 499, 500, 501

498 is 1 more than 497, so I am counting up by ones. I know 1 more than 99 is 100, so 1 more than 499 is 500.

b. 571, 581, 591, 601, 611

581 is 10 more than 571, so I am counting up by tens. I know 10 more than 90 is 100, so 10 more than 591 is 601.

c. 133, 123, 113, 103, 93

123 is 10 less than 133, so I am counting down by tens. I know 10 less than 100 is 90, so 10 less than 103 is 93.

2. Fill in the chart.

I can count 1 more or 1 less as I move across the chart. 1 more than 345 is 346. 1 less than 366 is 365. Once I know the pattern, it is easy to complete the chart.

This puzzle has a pattern! It is like a hundreds chart. I can count 10 more when I move down the chart. 10 more than 348 is 358.
