

GK-M1-Lesson 10

Count how many. Draw a box around that number. Then, color 1 of the circles in each group.

There are 4 circles.
I color 1 of them.
The hidden partners
are 3 and 1.

The top box contains 4 circles: 1 black circle and 3 white circles. Below the circles are the numbers 3, 4, and 5. The number 4 is enclosed in a square box.

The bottom box contains 5 circles: 4 white circles and 1 black circle. Below the circles are the numbers 3, 4, and 5. The number 5 is enclosed in a square box.

I color in 1 circle.
I see 4 and 1 hiding
inside of 5.
