

## GK-M1-Lesson 14

Color the stars so that 1 is yellow and 2 are red.

I count 3 things. I color 1 star yellow and 2 stars red. When I take apart 3, its parts are 2 and 1.

There are

3

stars.

I read the number sentence like this: 3 is the same as 1 and 2.

$$3 = 1 + 2$$
