

GK-M1-Lesson 19

5-group

Like fingers on a hand, we can make groups of 5 (and some more).

Draw a line from the numeral to the 5-group it matches.

I can count the dots on the 5-group card: 1, 2, 3.
With practice, I'll be able to just see that there are three.

Here's one card with 5 and another with 2. I can count 5, 6, 7.
Or, I can count them all. That's seven!

Fill in the missing numbers.

I count up to 7, starting from any number.
Look at me! I can write my numbers!

4, 5, 6, 7

7, 6, 5, 4, 3, 2
