

## GK-M1-Lesson 28

Make up a story about 10 things in your house. Draw a picture to go with your story. Be ready to share your story at school tomorrow.

I remember math stories we acted out in class today. Stories like, "8 students. 4 are girls. How many are boys?"  
I can draw and tell a story. Can you solve?

Mama and I ate a snack. There were 10 things on the table. Then, I dropped my fork on the floor. How many things are still on the table?
