

GK-M1-Lesson 30

Draw the missing stairs. Write the numbers below each step.

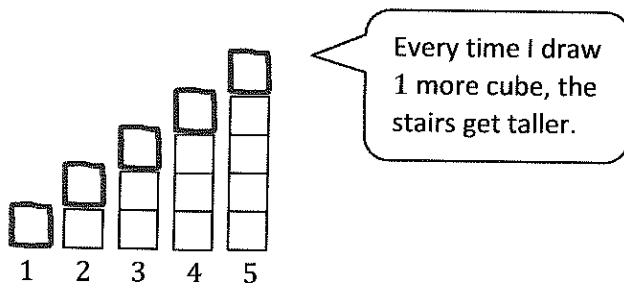

I can draw steps so baby bear can get to his mama! I can write the number 1 under the first step.

1. 1 more is 2.
2. 1 more is 3.
3. 1 more is 4.

I can count the 1 more way up to 10.

Draw 1 more cube on each stair so the cubes match the number. Say as you draw, "1. One more is two. 2. One more is three."

Every time I draw 1 more cube, the stairs get taller.
